

CCC APPLY

TARGET AUDIENCE:

Administrators: To increase school participation. Currently more than 92 of 110, 84 percent, of CCC colleges participate with CCCApply.

HISTORY:

CCCApply is the statewide, Web-based admission application system that launched in Fall 2001. On average, participating colleges complete 80 percent of applications via CCCApply after only one year.

DESCRIPTION:

CCCApply is the doorway to the California Community Colleges. It is an award-winning, field-proven success considered a pioneer in accessibility, compliance, and built-in intelligence.

CCCApply is a robust and powerful admissions solution that:

- Draws students from state and national portals.
- Automates admission application processes.
- Immediately facilitates services like financial aid.
- Enables application customizing with college logos and graphics, as well as supplemental questions and announcements.
- Allows colleges to establish immediate e-mail dialogues with applicants that are automated, proactive, and tailored to individual student need.
- Ensures legal and regulatory compliance.

SERVICES/PRODUCTS: CCCApply Modules

Comparative View

Comparison of CCCApply campus by various parameters.

Key Facts

A one-page summary for each of the community colleges.

Campus Tours

Provides online tours and includes statistical data, photos, links to official campus sites, and other useful information.

Matching Assistant

Allows you to select criteria that you would like your prospective college to meet and then displays all matching CCCApply colleges.

CCCApply Search

Search engine among participating colleges and universities.

Online Applications

- Online admissions application and automatic submission system.
- Online Board of Governors (BOG) Fee waiver.
- International Application with tools to manage all required supporting documentation.
